

Web Conferencing that Works

0113

Resolve's Web Conferencing is the ultimate collaboration tool. It allows you to engage in a face-to-face conversation with up to 5,000 participants worldwide, while sharing PowerPoint slides, documents, applications, and desktops.

Our service makes your everyday meetings easier, saving you time and money, as well as relieving you of all the stresses that go along with commuting.

The best part is, our platform is extremely user-friendly and each participant can access it via their web browser, whether they're using a desktop computer, tablet, or mobile phone. And if you ever have any questions, our support team is just a phone call away. Concerned about bandwidth? We have you covered there too.

Try our service once. It will change the way you do business.

What Does this Mean for Your Business?

- **Saved Money** - Reduce costs associated with travelling between meetings
- **Increased Productivity** - Less time spent traveling, means more time for more important things
- **Going Green** - Lower carbon emissions... Every bit helps!
- **Accessibility** - Instant access with no annoying downloads

Resolve Collaboration Makes the Difference

- **Affordable Pricing** - We offer packages from as low as \$19/month or \$119/year
- **No Software Required!** - Start meetings instantly! Our platform runs off Adobe Flash Player so you and your participants don't have to worry about downloading additional software
- **Multi-lingual Interface** - Our platform is designed to support any language and character set including Spanish, French, Russian, and Chinese as well as languages written right to left such as Hebrew, Arabic or Persian
- **Personalize It** - We will personalize your virtual meeting room with your logo and corporate colours
- **Track and Manage** - Our Account Management Portal enables you to track your staff usage, update your accounts and configure each call as you see fit
- **Complete Support** - We provide end-to-end client support including weekly training, live support and concise "how to" guides at no additional cost
